

Accelerate the Quote-to-Bind

# Process with **AI** and **RPA**

## Insurance Policy Checking

### Automated Policy Checking Process

- 1 IDP, extract relevant data points from the Policy/ Binder Document within seconds
- 2 RPA, verifies the extracted data against the AMS Policy Page
- 3 Using Low Code capabilities, comparative checklist is prepared with differences/matching information

### Main Features High Level

- ✓ PREDEFINED CHECKLIST
- ✓ ON-SCREEN VISUALIZATION
- ✓ AUDIT-TRAIL
- ✓ E&O SUMMARY
- ✓ DATA EXTRACTION
- ✓ COLOR-CODED ERRORS & OMISSIONS

### Why automate Policy Checking Process

- Real-time Policy Data Extraction for Commercial Insurance - Brokers and Carriers.
- Extract Data 400 Times Faster than Your Staff Can, With Greater Accuracy.

-  **Quick Turnaround**
-  **Cost Saving**
-  **Improve Accuracy**
-  **Eliminate Human Error**
-  **Reduce Operational Costs**
-  **Accelerate Policy Closure**

**400x**  
Reads unstructured insurance data faster than a human

**25 Min**  
Average machine policy check time versus hours or days

**50%**  
Through automating repetitive activities, increase in underwriting capacity

“AI & RPA based solution that extracts, reads and understands unstructured data in property and casualty insurance binders and policies.”
